

# Wireless 2-Way Intercom System With Video and Photo Capture

**HAND-HELD LCD Display Unit**, you'll be able to both **SEE and TALK TO** anyone approaching or knocking at your door regardless of where you are in your home!

From the display unit itself you can answer/hangup, manipulate screen brightness, and even take a snapshot of the individual for later use with a capacity of **163 images**

## CAMERA DOOR UNIT

The Camera Door Unit is placed right outside your door & features a **two way microphone and camera** so you can both view and communicate with the visitor from the inside.

**DAY OR NIGHT**, this unit will give you the piece of mind of knowing who is approaching, any time of day from anywhere inside!

**As soon as someone rings your doorbell, the iVision will take a picture of them and store it for later viewing**

- 300 ft. transmission range, line of sight
